

The Social District

The structure that helps face difficult situations

The Social District is a territorial structure, that is, it operates on the citizen's specific territory.

In order to obtain adequate answers for one's own needs in the case of temporary or permanent difficulties, the Social District can be contacted directly.

The staff working at the Social Districts is made of the following professionals, who have specific skills that vary and compliment one another:

- Social Assistant,
- Professional Educator,
- Curator.

There is only one Socio-educational District operating through four territorial branches:

Territorial branches:
